

"Before the Teen Club, I spent my time with nothing to do afterschool but stay home and watch tv. I was lazy, never felt like doing anything and had nothing to look forward to. When I joined the Teen Club, I thought it might be boring, but after a while, it felt like they were family to me. The Teen Club really changed my life. We go out and help with the community, do fun activities, workout, etc. Going through this experience made me feel like there are lots of opportunities and I should go for it.
